Dear Friend,

The Cora Hartshorn Arboretum & Bird Sanctuary is a haven of nature and open space in a hectic world. The Arboretum is a historic woodlands garden and educational institution whose mission is to **foster and promote environmental awareness, education, and stewardship within the greater community**. We are here today because of Cora, her father Stewart, and also because of the generosity of our members and donors. We are excited about the future of the Arboretum and we invite you to join us in our efforts to provide engaging and educational programming for visitors of all ages.

Our Past

Historically the Cora Hartshorn Arboretum has been an **important woodland and conservation regional resource** as well as a provider of **high quality education programs year-round for children, adults, and families**. We have embraced our woodlands as a living laboratory that allows us to provide impactful conservation programs to all who visit, while we stand as stewards to those who call the woods their home. Our conservation and education programs are rooted in a foundation that is collaborative, science-based, sustainable, and welcoming of partnerships with community volunteers.

Our Future

We are very excited about our future. This winter we will be **refurbishing the Stone House; building new exhibits, improving old ones, increasing our education outreach and strengthening our conservation message.** We are creating a unique and fun environment that both improves our quality of life and facilitates necessary connections that will impact positive local and global change. Please deepen your commitment to the Cora Hartshorn Arboretum & Bird Sanctuary by making a gift to our annual appeal this fall. **Your generous donation will help preserve an important community resource and allow us to continue the programming that sets us apart from the rest as we build our new future.**

We hope you will join us for a walk in the woods, or one of our programs, soon!

Many, many thanks.
