Seasons

Spring (Sp): March-May
 Summer (S): June-August
 Fall (F): September-November
 Winter (W): December-February

Relative Abundance

Abundant (A): A species which is very numerous

Common (C): A species which is very likely to be seen or heard

Uncommon (U): A species which is present, but not certain to be seen.

Occasional (O): A species that may be seen only a few times during the season.

Rare (R): A species that may be present, but not every year.

A blank space, designated by “_” means that this species is not found in the Arboretum during the given season.

Woodlands Habitat Birding Checklist for the Cora Hartshorn Arboretum

How Many Can you Find?

324 Forest Drive South
Short Hills, NJ 07078
973-376-3587

About Our Checklist: At the Cora Hartshorn Arboretum and Bird Sanctuary, there is an opportunity to see and hear many species of birds— from passers through to year-long residents. This checklist is to help you keep track of the birds you see or hear on our 16.45 Acres of Woodlands. The Checklist is broken down by Group and the Common Name of the bird. We have also included the seasons you will most likely find the birds. Good luck on your birding adventure!
